 Mr. Ruskin says in one of his catalogues, it “has
 seven subjects from Andernach on the Rhine,
 showing stormy sunsets and drifts of cloud, all
 completely designed ; the best, that on the left in
 the second row from the bottom, only measures
 one inch and a half in length by three-quarters
 of an inch in height.” (See Cook’s “Ruskin on
 Pictures,” p. 244.)

(Note.—I am not convinced that the views are at Andernach. The scenery suggests rather that of a Belgian canal than the Rhine. There are, however, no names of places written on any of the sketches.)

* *Note.*—It is difficult to say to which date the "Sun" (Sunday) refers—whether to the 14th August, on the left, or 27th August, on the right. The 14th August fell on a Sunday in 1823 and 1828; the 27th August fell on Sunday in 1826. The same remark applies to the second note "Sun.," between 21st August and 3rd September. The 21st August fell on Sunday in 1823 and 1828, the 3rd September in 1826. The remark "Samedi," against 12th September, points to either 1818 or 1829. It follows that some of Turner's statements must be incorrect. I have selected 1826 as the most probable, though liable to alteration should fresh facts come to light.

I am inclined to think that these are all views on the Moselle, probably between Trèves and Cologne.

CCXX.—WATER COLOURS CONNECTED WITH THE MEUSE-MOSELLE TOUR (1).

The majority of these drawings are in body colour on blue paper. In addition to these drawings in colour, there are also a large number of pencil and chalk drawings on similar paper, which doubtless belong to the same tour. I have not, however, been able to discover any positive evidence that these blue paper sketches were made on the 1826 tour; they may, therefore, possibly belong to the second tour over the Meuse and Moselle made in 1834.

The reason for the present tentative arrangement is therefore based on merely stylistic grounds. The two finished drawings of “Huy” and “Namur,” in the Ruskin Donation, at Cambridge, seem to belong to this group of sketches; and “about 1827” seems to me a much more likely date for them than “about 1835,” which would be their probable date of production if they were the immediate result of the 1834 tour.

A. View of Dieppe Harbour.

Twenty slight coloured sketches, chiefly from Dieppe. There are one or two in this parcel that some people might like. I consider them all done in some careless or sickly state of mind, and have therefore put all aside, except one, taken out for an example, and seven, too large, put elsewhere, leaving here 12.” (These are the following 12 drawings, A to L.)

CCXXIV.—BLACK AND WHITE SKETCHES
ON BLUE CONNECTED WITH THE
MEUSE-MOSELLE TOUR.

All these drawings are on blue paper, in pencil or black chalk and white chalk unless otherwise specified. The drawings appear to have been made on pieces of paper about $11 \times 7\frac{1}{2}$, folded in halves; in a number of cases the paper has been cut in halves, leaving pieces of about $5\frac{1}{2} \times 7\frac{1}{2}$.

The identification of almost all these drawings is doubtful. Some of them may belong to the "Rivers of France" series, or even to the Italian tour of 1828. The remarks made with reference to the colour drawings tentatively connected with this tour apply also to the black and white sketches.

† I have massed all the French Rivers sketches together, as “*circa*, 1830,” although I am inclined to think that most if not all of them were made earlier. Thus the sketches in the “*Dieppe, Rouen, and Paris*” book (cclviii.) seem to have been made before the old spire of Rouen Cathedral was destroyed on 15th September, 1822; those in the “*Rouen*” book (cclv.) seem to have been made after the old spire was destroyed and before the new one was commenced in 1827; those in the “*Tancarville and Lillebonne*” (ccliii.) and “*Seine and Paris*” (ccliv.) books appear to have been made while the new spire was in course of construction; and the Loire sketches may have been made about 1826. But to clear up these matters definitely, I should have to travel over the ground covered by these sketch books, and that I have no time for at present. There is, however, a certain convenience in having all the French Rivers subjects together.

 SKETCH BOOK.

SCHEDULE NO. 266.

Sketch book, bound in cardboard.

Endorsed in ink by Turner, on outside of cover—
 “*Loire, Tours, Orleans. Paris.*”

Executor's endorsement—“No. 266. 44 sketches
 in pencil.

(Sgd.) H. S. Trimmer.”

Water mark, —. ———.

Size of page, 6 × 4.

The leaves were distributed, but were numbered.
 The following were contained in a packet endorsed,
 “266. Inferior leaves”:—Nos. 5, 13, 14, 25, 28, 33,
 41, 44, and one unnumbered leaf, making 9 in all.

There are slight sketches of a building, &c., over inside of
 both covers; also, on one, the following written in ink by
 Turner:—“1826. 23 Augt. *Colnaghi Junr*—*Set of Liber.*”†

† Possibly this note may indicate that the sketches were also made in 1826. This seems to me quite probable—indeed, I am inclined to put this “*Loire*” tour before the 1828 Italian journey, simply because there is almost too great a pressure of work between 1830 and 1833, if it comes after the tour to Italy. Yet as I have been unable to find any corroborative evidence for this earlier date, I have hesitated to adopt it. There is also a certain advantage in massing the French Rivers Tours together, as it is impossible to separate the sketches and studies on blue paper, made during and in connexion with the two tours, until all the subjects have been identified. But see Note, p. 751.

* As these three sketches clearly show the old spire on the Cathedral, which was destroyed by fire on 15th September, 1822, the date of this sketch book must be before 1822.

Page 20. Sketches of three pictures (probably Claudes or Poussins) with descriptions :—(1) “*The sky is warm. Some Blue clouds over the Hadrian’s Villa to the white or rather yellow clouds are very pure and smaller than usual with Gaspar. CCLIX.—WATER COLOURS ON BLUE PAPER: MOSTLY CONNECTED WITH THE “FRENCH RIVERS” SERIES.

These drawings are all made on blue paper, about $5\frac{1}{2} \times 7\frac{1}{2}$ inches in size. They appear to have been generally sketched in with pencil and white chalk, and body colour has been freely used in them, though some of the colours are used in a transparent state. The drawings appear to be chiefly Loire and Seine subjects, but until they are all identified I thought it would be best not to attempt to separate them. For the same reason some Belgian subjects have also been included, and there may possibly be some Rhine and even English subjects amongst them.

The drawings range, I believe, from about 1826 to about 1832 or 1833.

CCLXIII.—COLOUR BEGINNINGS.

The majority of these drawings appear to be studies of the fundamental colour structures of designs. I do not think any of them are sketches made direct from Nature. The suggested date—between 1820-1830—must be regarded as modifiable by subsequent research.

The drawings were included in various parcels, endorsed—

- “A. B. 92 P.O. Colour effects. Valueless;
- A. B. 94 P.O. Colour effects. Finer;
- A. B. 150 P.O. Colour dashes on white. Valueless;
- A. B. 168 P.M. Colour on white. Beginnings.

Fawkes, dated 28 Dec., 1844, which says "I went . . . to Lucerne and Switzerland, little thinking or supposing such a cauldron of squabbling, political or religious, I was walking over. The rains came on early, so I could not cross the Alps; twice I tried—was sent back with a wet jacket, &c. . . After . . . I marched up some of the small valleys of the Rhine and found them more interesting than I expected." (Cf. Armstrong's "Turner," pp. 174-5.)

If we count these two leaves, this book still remains three leaves short. These will doubtless be found among the "Miscellaneous" drawings.)

Mr. C. Mallord W. Turner has in his possession one other of these drawings (which makes up the eight), on the back of which is written in Turner's handwriting,—"*All in this paper West Country Barges.*"

CCCLXX.—CHAPTER HOUSE AT MARGAM, GLA-MORGANSHIRE, BY M. A. ROOKER, A.R.A.

- A. Exhibited Drawing, No. 808, N.G., as "A Ruined Abbey (pencil)."

The title is written on back of drawing in ink; also written in pencil, "2 Day Lot 105."

This evidently refers to Rooker's sale. Lot No. 105 (2nd day) is described in Squibb's catalogue as "Six (Sketches and Outlines)—Chapter House at Margam and Ponty Praed." Mr. C. M. W. Turner has in his possession two other drawings of Margam Chapter House, which formed part of this lot.

He also possesses lot 110 (2nd day's sale), described as "Five (Sketches and Outlines)—Ogmore Castle, &c."; lot 119—"Five—Usk Castle and Newport on Usk"; also lot 8 (3rd day)—"5 Sketches Abergavenny Castle, Ragland ditto and Caerleon ditto." The latter lot fetched £1 1s., according to the priced catalogue at the British Museum. These drawings were all doubtless purchased by Turner at the Rooker sale.

CCCLXXI.—MONOCHROME DRAWINGS, BY
EDWARD DAYES.

(At Dr. Monro's sale, on 2nd July, 1833, a lot (No. 49) of 7 drawings by Dayes, of "Hastings, Southampton, Freshwater, &c.," was sold. It is probable that drawings A-G are the ones then sold, and that Turner bought them.)

(At Dr. Monro's sale, second day, 27 June, 1833, lot 110 was described as "By de Louthembourg. Sketches from nature in Wales; on cards, in pen and ink. 44." It is probable that these are part of the lot then sold, and that Turner bought them.)

CCCLXXIII.—DR. MONRO'S ALBUM OF ITALIAN VIEWS.

SCHEDULE No. 73.

An album containing 64 leaves of stout cartridge paper, on each of which a drawing has been mounted.

Size of page, $14\frac{1}{4} \times 19\frac{1}{2}$.

Mr. Ruskin's description—"A.B. 172 P.M. Book of grey wash sketches of hardly any value."

On inside of cover, in ink—"Turner . 4" ; and in pencil—"3—78" and "Bought at Dr. Monro's Sale."

Lot 78, in the 3rd day's sale, was described as "A Book containing 62 interesting sketches in the neighbourhood of Rome and Naples, by Turner, in Indian ink and blue." In my opinion the drawings are not by Turner, but by Girtin. This conclusion is based mainly on stylistic grounds, but I have seen an account of a scene at an auction where Turner informed the auctioneer that some drawings attributed to him were not by him. I do not think the particular occasion was specified, and I am sorry to say I have mislaid the reference to the statement. Perhaps the incident may have been connected with this book and the next (q.v.).

The titles are generally written on the backs of the drawings, in pencil, in, I believe, Girtin's handwriting.

All the drawings are in wash, mostly in Indian ink and blue, though some are in Indian ink alone.
